

NIKON YOUNG SCIENTIST AWARD OF THE DGZ

Preisträger:

- 2013 Dennis Breitsprecher (Waltham, USA):
Single molecule reconstitution of actin regulatory mechanisms
- Fabian Erdel (Heidelberg, Germany):
Need for speed: Tracing chromatin remodelers in search of the right nucleosome
- 2014 Hans Zempel (Bonn, Germany):
Tau missorting is the primary mediator for A β -oligomer induced toxicity: Tau dependent microtubule loss via TTLL6 and the microtubule severing protein spastin
- 2015 Kai Kretschmar (Utrecht, The Netherlands):
Remodelling adult skin by epidermal β -catenin activation
- 2016 Sophie Steculorum (Köln, Germany)
