Chairs and Invited Speakers: --

To become a DGZ Member, please visit <http://zellbiologie.de/mitgliedschaft/>  
or contact the DGZ office, E-mail: [dgz@dkfz.de](mailto:dgz@dkfz.de)

## Abstract Submission

Deadline abstract submission: **January 31, 2017**

Notification of acceptance of abstracts: February 2017

**Please note that the acceptance of your abstract does not include congress registration.** At least one author (the first or the presenting author) needs to register for the congress. The abstract will otherwise not be reviewed and waived from the scientific committee.

### Abstract Topics:

- Session 1: Cell biology by numbers
- Session 2: Mechanisms of nucleocytoplasmic exchange
- Session 3: New insights into cell-cell fusion: Mechanisms of membrane fusion
- Session 4: Extracellular vesicles - The secret side of cell-cell communication
- Other Topics

### Digi Poster Presentation:

There will be three Poster Walks: Short Presentations on Digi Posters.

### Short Talk Presentation:

Short talks (10 minutes + 2 minutes discussion) will be selected on the basis of the abstracts by the session chairs. Short talk speakers are invited to present a digi poster in addition to their talk.

A new poster presentation technology will be used. The equipment is made specifically for displaying dynamic poster presentations and features on a 60-inch monitor, and authors give their oral presentations using an iPad and microphone. There will be 8 digital poster terminals that will be scheduled with poster presentations in 15 minute increments throughout the meeting days.

**“Das Terminal” was created specifically for digital poster presentations and offers:**

- Ideal visibility on a 60" Full HD screen with integrated PA discussion system.
- Controlling posters via Apple© iPad© gestures and integrated “laser pointer”.
- Full implementation of audio and video.
- Powerful, full poster content search.
- Communicate with poster authors via email (permission assumed).
- Poster upload online, quickly, and easily.
- Secure poster content.

**New features available for posters include:**

- the ability to embed graphics and video files to demonstrate results;
- complete site search for all posters; and
- the ability to communicate with authors, leave comments, and ask for more info.
